<b>10-Day Total:</b>			<b>0.0</b>		<b>0.57</b>		
<b>10-Day Percent of Normal:</b>			<b>0%</b>				

**Comments:**

No significant precipitation for the Feather Basin is forecasted for this week, but there may be some periods of isolated showers and thunderstorms over the Sierra. The long-range weather models suggest warming temperatures next week. The next update of this forecast will be about Wednesday, May 14, 2008, unless there are significant hydrologic changes.
